

**Incubators INplus and IFplus****Memmert****Incubators INplus and IFplus**

Incubators for research, medicine, pharmaceuticals and food technology. Organic chamber loads require gentle heating. For this reason, the heating and control system are especially optimised for low temperatures of up to +80 °C. To prevent temperature overshoots, temperature is increased within a very narrow control range and kept exactly at the setpoint value.

- with all-round surface heating
- fresh air is pre-heated
- with inner glass door

TwinDISPLAY: ControlCOCKPIT with two colour displays
