

**Sampler ViscoSampler, PTFE/FEP or PP****Bürkle****Sampler ViscoSampler, PTFE/FEP or PP**

Ultra-pure sampler with powerful suction for viscous media.

Specially developed for viscous substances, such as slurries, silt, wet clay and soil samples, sediments, oils, emulsions and creams.

The suction flask sucks up and discharges the material. All surfaces are non-porous and crevice-free, preventing dirt accumulation. Only round-profile threads, suitable for food hygiene applications, are used. Allow easy dismantling and cleaning.
