

**Software upgrade Gen5 IVD**

BioTek Instruments GmbH

Software upgrade Gen5 IVD

The Gen5 IVD software has been designed for clinical laboratory. It includes, in addition to versatile features and functionalities of Gen5, extra features such as QC trending module and the Gen5 Validation package for the internal software validation.

- Powerful and easy-to-use software for all read modes and methods
- All-in-One Software for Reader control, Data Reduction, Export to Excel or text file and creation of Publication-ready reports
- Offers functionality to help comply with the requirements of 21 CFR Part 11 (e.g. secured data storage, user group management, electronic signature, audit trail, etc.)
- Includes quality control trending module with Levey-Jennings charts and automatic email notification on trigger events
- 25 licenses per copy
