Zone samplers, Multi/All-layer/Jumbo/Uno, steel V4A or aluminium

For sampling bulk goods of all types. Available in various different lengths and materials:

Multi-sampler: With several closed chambers for multi-point sampling from several predetermined sampling depths. Available in stainless steel V4A/PTFE, stainless steel V4A/V4A or aluminium. Tube diameter: 25mm.

All-layer-sampler: with open inner tubes for cross-sectional sampling through all layers of the sample. Emptied via the open tube end of the sampler. Available in stainless steel V4A or aluminium. Tube diameter: 25mm.

Jumbo-sampler: generally as the All-layer-sampler with open tube end. With a tube diameter of 50 mm, ideal for coarse grains and larger quantities. For multi point sampling the chambers can be separated by PTFE separators.

Uno-sampler: With a closed chamber, for target samples from a pre-determined sample depth.

Easy emptying with the emptying device.

Lock seal close-it and close-it food & pharma please order separately.
