### Overhead stirrer EUROSTAR 200 digital / 200 control

Extremely powerful laboratory stirrer for highly viscous applications and intensive mixing for quantities up to 100l (H<sub>2</sub>O). It automatically adjusts the speed through microprocessor controlled technology within the speed range of 0/6 to 2000rpm (two speed ranges). Safety circuits installed ensures automatic cut-off in an anti-stall or overload conditions. Continuous comparison of shaft speed to desired speed is maintained and variations are adjusted automatically. This guarantees a constant speed even with changes in viscosities of the sample.
