

# Ferro ammonio solfato ico dodecaidrato

## Synonyms:

Ferro III ammonio solfato dodecaidrato , Ammonio ferro solfato ico dodecaidrato

**FeNH<sub>4</sub>(SO<sub>4</sub>)<sub>2</sub>·12H<sub>2</sub>O**

**Classification**

**Danger**

Molecular weight      **482.19** ONU

CAS      **7783-83-7** Transport hazard class:

EEC-N:      **616-517-5** Packing

Ferro ammonio solfato ico dodecaidrato

> RE - Puro

Grado Tecnico

|                                       |                                 |     |
|---------------------------------------|---------------------------------|-----|
| Description                           | Purple semitransparent crystals | -   |
| Identification (I.R.)                 | Positive                        | -   |
| Assay (oxydimetric)                   | >= 98.0                         | %   |
| Chloride                              | <= 0.05                         | %   |
| Not precipit. with NH <sub>4</sub> OH | <= 0.1                          | %   |
| Cu                                    | <= 20                           | ppm |

|                                                    |       |               |
|----------------------------------------------------|-------|---------------|
| Ferro ammonio solfato ico dodecaidrato > RE - Puro |       | Grado Tecnico |
| Zn                                                 | <= 50 | ppm           |

| ID                  | Size | Packaging             |
