

## Eptano miscela di isomeri

Synonyms:

|                  | Classification          |      | Danger                                                                                                                                                                |
|------------------|-------------------------|------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Molecular weight | ONU                     | 1206 |   |
| CAS              | Transport hazard class: | 3    |   |
| EEC-N:           | 927-510-4 Packing       | II   |                                                                                                                                                                       |

**Eptano miscela di isomeri**

&gt; RE - Puro

Grado Tecnico

|                        |              |      |
|------------------------|--------------|------|
| Appearance             | Clear liquid | -    |
| Identification         | Conform      | -    |
| Colour                 | <= 10        | APHA |
| Density at 15°C        | 690 - 725    | g/L  |
| Distillation range     | 85 - 105     | °C   |
| Water (K.F.)           | <= 150       | ppm  |
| Residue on evaporation | <= 100       | ppm  |
