

**Etichette di sicurezza Safe-it****Bürkle**

Safety labels safe-it.

The safety label safe-it is used as originality seal and as protection from manipulations of e.g. samples, retention samples, for transporting samples, sealing containers, as well as sealing letters and shipments. If the safety label is removed, it divides into separate layers and a silver checkerboard pattern appears on both the subsurface and surface of the sticker itself. Once the label has been removed, it cannot be used again. Changing the label or modifying it afterwards are therefore not possible.
